«

EGateway to Globally Renowned 100+ Universities

The NCC Education Level 3 Diploma in Computing (L3DC), delivered at Britain International Academy, is a UK Ofqual-regulated qualification designed to introduce students to the dynamic world of computing.

This foundational program develops essential IT knowledge, practical computing skills, and mathematical competence, while also fostering key transferable study techniques. Ideal for learners preparing for higher education or professional pathways, the diploma provides a solid academic base in digital literacy, computer science principles, and real-world IT applications, setting the stage for progression to advanced diplomas or university-level computing programs.
